AL ARAF RABBY

SENIOR SOFTWARE ENGINEER | .NET | ANGULAR | SQL SERVER

Dhaka, Bangladesh | alarafrabby@gmail.com | github.com/AlArafRabby | alarafrabby.github.io

PROFESSIONAL SUMMARY

Senior Software Developer with 5+ years of professional experience designing, developing, and supporting enterprise ERP, web, API, and mobile applications. Strong expertise in C#, ASP.NET Core, ASP.NET Web API, Microsoft SQL Server, REST APIs, Entity Framework, Dapper, and enterprise application architecture, with hands-on Angular and TypeScript skills. Experienced in business-critical systems spanning sales, inventory, payroll, VAT, transport, reporting, service automation, and field-force operations. Skilled in clean architecture, microservices, CQRS, DDD, messaging, caching, real-time communication, Docker, and structured software delivery.

CORE TECHNICAL SKILLS

Backend & .NET: C#, ASP.NET Core, ASP.NET Web API, ASP.NET MVC, Razor Pages, ADO.NET, LINQ, Entity Framework, Dapper, REST API

Frontend: Angular, TypeScript, RxJS, Angular Material, React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Database & Reporting: Microsoft SQL Server, T-SQL, Stored Procedures, Functions, Views, Database Design, SSIS, SSRS, RDLC

Architecture & Integration: Clean Architecture, Microservices, DDD, CQRS, Repository Pattern, API Gateway, RabbitMQ, Redis, SignalR, gRPC

Tools & Practices: Docker, GitHub, TFS, Visual Studio, SSMS, Agile, OOP, Data Structures, Algorithms, Clean Code, System Design

PROFESSIONAL EXPERIENCE

Senior Software Developer / Officer | Akij Group | Dhaka, Bangladesh

January 2023 - Present

- Design, develop, and maintain ERP, web, API, and mobile applications supporting internal business operations across Akij Group.
- Build backend services and business modules using ASP.NET Core, Microsoft SQL Server, REST APIs, and the Microsoft technology stack.
- Design database schemas, stored procedures, functions, views, and reporting solutions for enterprise workflows and business reporting requirements.
- Develop Flutter-based mobile applications for sales force, service engineering, attendance, movement, tracking, and operational automation.
- Apply clean code, reusable architecture, and structured development practices to improve maintainability and support long-term system growth.
- Collaborate with business users and internal stakeholders to analyze requirements, troubleshoot production issues, and deliver practical software solutions.

Assistant Officer / ERP & Mobile Application Developer | Akij Group | Dhaka, Bangladesh

March 2021 - December 2022

- Developed and maintained ERP and mobile application features using ASP.NET, ASP.NET Core, Microsoft SQL Server, and Flutter.
- Created SQL Server queries, stored procedures, reports, and application logic for sales, inventory, payroll, VAT, and transport workflows.
- Supported production applications by resolving bugs, enhancing existing features, and maintaining business-critical modules.
- Contributed to database design, workflow design, and application flowcharts for enterprise software projects.

Intern Developer | Akij Group | Dhaka, Bangladesh

September 2020 - February 2021

- Assisted in ERP and ASP.NET Core application development, maintenance, testing, and debugging.
- Gained practical experience in enterprise software development, SQL Server, backend logic, and application support.

SELECTED ENTERPRISE PROJECTS

ERP System

Technologies: ASP.NET, ASP.NET Core, SQL Server, T-SQL, RDLC, SSRS, ADO.NET, Entity Framework

- Developed and maintained ERP modules for primary sales, transport management, payroll management, VAT management, and business reporting.
- Designed database objects including stored procedures, functions, views, and reporting queries to support enterprise workflows.

RTM - Route to Market / Secondary Sales Management System

Technologies: Flutter, ASP.NET Core, SQL Server, REST API, Google Maps, Firebase, Push Notification

- Developed a secondary sales management system for Akij Pipes and Fittings Limited sales-force operations.
- Implemented modules for primary sales, secondary sales, inventory management, leave, movement, attendance, chat, tour planning, and real-time sales officer tracking.
- Integrated mobile workflows with ASP.NET Core REST APIs, SQL Server, location services, Firebase, and push notifications.

Akij Pipes Care

Technologies: Flutter, ASP.NET Core, SQL Server, REST API

- Built a mobile application for service engineers to automate the boring-fail refund process.
- Integrated mobile workflows with backend APIs to reduce manual service-processing steps.

Akij Plastics Islamic Guide

Technologies: Flutter, Android, Notification, Date/Time Calculation

- Developed an Android application for salat time, sehri time, and iftar time reminders with notification-based functionality.

EDUCATION

- Bachelor of Science in Computer Science and Engineering - Dhaka City College, 2019 | CGPA: 3.31
- Higher Secondary School Certificate, Science - Dhaka Board, 2014 | GPA: 5.00
- Secondary School Certificate, Science - Dhaka Board, 2012 | GPA: 4.88

CERTIFICATIONS & TRAINING

- Certified Web Application Development - .NET, BASIS Institute of Technology & Management (BITM), 2018
- Certified ASP.NET Core, PeopleNTech, 2020
- Certified Android Developer, NASSCOM IT-ITES Sector Skill Council, 2017

ADDITIONAL STRENGTHS

Software architecture design, ERP development, Agile development, clean code, problem solving, database design, business requirement analysis. **Languages:** Bangla (Native), English (Fluent).
